Bruce Langton is coming!

Where _____ *Date* _____

Born in Minnesota and raised on a lake in Wisconsin, Bruce spent numerous hours using his imagination to live out his childhood fantasies. Today, Bruce finds himself doing very much the same things: bringing to life through paintings what we all fantasize about in our minds.

From illustrating books and collector plates to producing over 100 limited edition prints and etchings, Bruce is proud to have carved a name in art history. Through generous contributions and the motivation of nature, he has helped raise many thousands of dollars for conservation.

Today, Bruce resides in Indiana with his wife Rebecca and two sons, Brett and Rory along with their pets, Microsoft, Coconut and Maui.
